SUBJECT: Indian Point Unit No. 2, Spent Fuel Pool Storage Capacity Increase  
(TAC 72962)

My letter dated February 9, 1990 transmitted revised figures containing the rack removal and installation sequence with fuel shuffles for the proposed Indian Point 2 rerack. The description of the changes provided with the revised figures refers to "Figures 1-8" and "Figures 2-8", whereas the description should have referred to "Figures 1-7" and "Figures 2-7". The figures themselves are correct.

Should you or your staff have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
