SUBJECT: Indian Point Emergency Plan Drill Scenario

By copy of this letter, the subject document is being forwarded to addresses per NRC guidance received in 1989. Since we believe that Battelle Northwest is no longer participating in this exercise a copy has not been sent to them. In lieu thereof, we have sent two copies to Region I for further distribution, if necessary.

Please note that this scenario reflects an assembly and accountability objective of 30 minutes. The 20 minute objective stated in our previous letter of August 17, 1990 was in error.

Should you or your staff have any questions concerning this letter please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
