Dear Mr. Bram:

SUBJECT: CLOSEOUT OF IE BULLETIN 79-15 FOR INDIAN POINT NUCLEAR
GENERATING UNIT NO. 2 (TAC NO. 69566)

By letter dated October 27, 1989, you responded to our August 21, 1989, request for additional information regarding IE Bulletin 79-15, "Deep Draft Pump Deficiencies."

The NRC staff has reviewed your October 27, 1989, response and has concluded that an adequate basis exists to resolve the staff's safety concerns regarding the two Ingersoll-Rand containment recirculation pumps installed in Indian Point 2. The basis for our conclusion is provided in the enclosed safety evaluation.

Your cooperation in resolving this issue is appreciated.

Sincerely,
