SUBJECT: Quality Assurance Program, Revision 9

Pursuant to 10 CFR 50.54 we are submitting as an enclosure to this letter a description of our current Quality Assurance (QA) Program. The enclosure, entitled "Quality Assurance - Revision 9", contains our revised program and supersedes Revision 8 which was submitted to you on December 19, 1990. Attachment II of the enclosure, entitled "Summary to Changes" summarizes the key changes made.

We have concluded that the changes in the enclosure do not constitute a "reduction in commitment" per 10 CFR 50.54(a)(3). Accordingly, the changes have either been implemented or will be implemented in the near future.

Should you have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
