Re: Indian Point Unit No. 2  
Docket No. 50-247

Document Control Desk  
US Nuclear Regulatory Commission  
Mail Station P1-137  
Washington, DC 20555

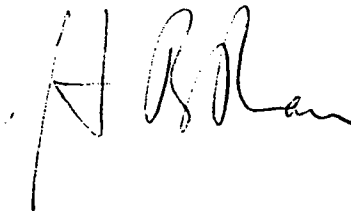

SUBJECT: Quality Assurance Program, Revision 10

Pursuant to 10 CFR 50.54, Con Edison is submitting as an enclosure to this letter a description of our current Quality Assurance (QA) Program. The enclosure, entitled "Quality Assurance Program, Revision 10", contains our revised program and supersedes Revision 9 which was submitted to you on December 19, 1991. Attachment II of the enclosure, entitled "Summary of Changes" summarizes the key change made which involves the organizational reporting arrangement of the Nuclear Quality Assurance organization.

We perceive the change as an enhancement to the overall Quality Assurance Program at Indian Point Unit 2. However, due to the change in organization structure, as described in Attachment 2, we are submitting this change for your approval. Your expeditious review would be appreciated.

Should you or your staff have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,

Enclosure
