NRC STAFF'S RESPONSE TO MISSOURI DEPARTMENT OF NATURAL RESOURCES
AND MISSOURI DEPARTMENT OF HEALTH AND SENIOR SERVICES'
REQUEST FOR EXTENSION OF TIME TO FILE COMMENTS AND
FOR THE PUBLIC TO FILE HEARING REQUESTS

INTRODUCTION

Pursuant to 10 C.F.R. § 2.323(c), the NRC staff ("Staff") hereby responds to the request for a thirty-day extension of time to file comments and extension of time for the public to file hearing requests ("Request") filed by Eric Gilstrap, P.E., on behalf of the Missouri Department of Natural Resources and the Missouri Department of Health and Senior Services.¹ For the reasons set forth below, the request for an extension of time for comments is not necessary since comments may be filed at any time, and Mr. Gilstrap's request for an extension of time for the public to file hearing requests should be denied.

DISCUSSION

By application dated August 12, 2009, Westinghouse Electric Company, LLC (WEC) submitted a license amendment request ("Amendment") (ADAMS Accession No. ML092330136) seeking approval of its decommissioning plan for the Hematite facility located

in Festus, MO. On December 8, 2009, a notice of opportunity to request a hearing or petition for intervention was published in the Federal Register, setting the deadline for filing on February 8, 2010.² On January 22, 2010, Mr. Gilstrap requested an extension of time for the Missouri Department of Natural Resources and the Missouri Department of Health and Senior Services to file comments and an extension of time for the public to file hearing requests.³

As the basis for his requests, Mr. Gilstrap notes the complexity and size of the documents associated with the amendment request and that the review period overlapped the Thanksgiving and Christmas holidays.⁴ With regard to the submission of hearing requests, Mr. Gilstrap asserts, “[w]e feel that the public may need additional time as well”⁵ Mr. Gilstrap explains, however, that the Missouri Department of Natural Resources and the Missouri Department of Health and Senior Services do not intend to request a hearing, but instead intend to submit only “questions, comments, or position statements for [the] project staff to consider.”⁶

Generally, it is Commission practice to require those seeking extensions of time to file their own requests and demonstrate “good cause” for the extension sought, meaning that one person cannot seek an extension of time for the public. For example, in 2002 a member

³ The Federal Register notice of an opportunity for hearing did not establish a deadline for filing comments to the NRC. See Opportunity to Request a Hearing, 74 Fed. Reg. at 64,765. In fact, comments will be accepted at any time and may be addressed to John Hayes, Project Manager, at John.Hayes@nrc.gov.

of Congress requested "a 30-day extension to the filing period for individuals and organizations to petition to intervene in the Diablo Canyon Spent Fuel Storage application."⁷

The Secretary of the Commission denied this request for a general extension stating that granting such an extension would be against general Commission practice because persons seeking an agency action, such as an extension of time, must file their own requests.⁸

Accordingly, to the extent Mr. Gilstrap seeks an extension of time for the general public to file requests for hearing, his request should be denied; however, comments will be accepted at any time.

Ms. Annette Vietti-Cook
Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C., 20555

Dear Ms. Vietti-Cook:

I am respectfully writing to request a 30-day extension to the filing period for individuals and organizations to petition to intervene in the Diablo Canyon Spent Fuel Storage application.

I have been contacted by a number of my constituents who have expressed the need for added time to prepare petitions for intervention in this matter.

Because of the seriousness of this decision to consider dry cask storage of spent nuclear fuel in San Luis Obispo County, I urge the Commission, consistent with all applicable rules and procedures, to allow the public more time to review their position and prepare petitions to intervene.

Thank you for your consideration on this urgent matter.

Sincerely,

LOIS CAPPS
Member of Congress

The Honorable Lois Capps
United States House of Representatives
1118 Longworth Building
Washington, D.C. 20515-0522

Dear Congresswoman Capps:

I have received your letter dated May 22, 2002, requesting an extension of time for the filing period for individuals and organizations to request hearings and to petition to intervene in a proceeding concerning the application for the Diablo Canyon Spent Fuel Storage Facility. For the reasons stated below, the Commission has denied your request.

Initially, Commission practice generally requires that persons seeking an agency action, such as an extension of time, file their own requests. In other words, one person cannot seek an extension of time for another person. In addition, while the Commission's Rules do provide for granting extensions of time, the Rules require that those extensions be granted for "good cause." See 10 C.F.R. §2.711(a). Your letter does not provide any specific "good cause" why the time specified in the Federal Register Notice should be extended. Finally, the Commission has already received at least three Requests for Hearing and Petitions to Intervene related to this matter. So at least some of the persons interested in requesting a hearing and intervening in the proceeding have filed timely requests.

While the NRC appreciates your interest in this matter, your request for an extension of time is denied.

Sincerely,

/RA/

Annette Vietti-Cook
Secretary to the Commission
