Dear Mr. Bram:

Subject: **EMERGENCY PREPAREDNESS (EP) INSPECTION 50-247/92-20**

Enclosed is the report of the October 13-15, 1992 inspection, by Mr. L. Eckert and others, of Indian Point Nuclear Generating Station, Unit II emergency preparedness (EP) and of the partial-participation, annual EP exercise.

The areas examined during this inspection are described in the NRC Region I report which is enclosed with this letter. Within these areas, the inspection consisted of inspector observations, interviews with personnel, and examination of procedures and records.

The inspection conclusion was that exercise performance demonstrated the ability to protect public health and safety. Control Room mitigation strategies were an exercise strength. No exercise weaknesses were identified.

No reply to this letter is required. Thank you for your cooperation.
