Re: Indian Point Unit No. 2  
Docket No. 50-247

Document Control Desk  
US Nuclear Regulatory Commission  
Mail Station P1-137  
Washington, DC 20555

SUBJECT: Supplement to the Indian Point Unit No. 2 License Amendment  
Request Proposing Changes to the Technical Specifications  
Regarding Pressure-Temperature (P-T) Limits

Per discussions with the NRC Staff, attached is Consolidated Edison Company of New York, Inc.'s supplementary information on the captioned subject. Information is supplied in response to three items. In addition, revised pages to the Indian Point Unit 2 Technical Specification bases are enclosed.

Attachment I comprises the proposed revised Technical Specification bases pages. Material designated as proprietary information by Westinghouse Electric Corporation is also attached. Accordingly, with this letter, Attachment II is documentation to support withholding this proprietary-designated information. It contains a Westinghouse authorization letter, CAW-97-1140, accompanying affidavit, Proprietary Information Notice, and Copyright Notice. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.790 of the Commission's regulations. Accordingly, on behalf of Westinghouse it is respectfully requested that the information which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR Section 2.790 of the Commission's regulations.

Attachment III is a proprietary version of Westinghouse's response to item I of the additional information and is entitled "Response to NRC Questions on Indian Point Unit 2, P-T Limit Curves" (Proprietary).

Attachment IV is a non-proprietary version of the above entitled "Response to NRC Questions on Indian Point Unit 2, P-T Limit Curves" (Non-proprietary).

Correspondence with respect to the copyright or proprietary aspects of the items listed above or the supporting Westinghouse affidavit should reference CAW-97-1140 and should be addressed to N.J. Liparulo, Manager of Equipment Design and Regulatory Engineering, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

Attachment V is Con Edison's response to items II and III and is entitled Con Edison's Response to NRC Questions on Indian Point Unit 2, P-T Unit Curves. This attachment does not contain any proprietary information.

Should you have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
