Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
I. E. Bulletin No. 80-11

Dear Sir:

The purpose of this letter is to document a telephone conversation between NRC Region I (Mr. A. Finkel) and the Authority, which occurred on November 5, 1980.

The Authority requested an extension to the 180 day response for I.E. Bulletin 80-11, "Masonry Wall Design." The response was due on November 4, 1980 and the Authority stated that the response could be submitted on or before November 19, 1980. The delay has been caused by the need to resolve comments on the final report which we received from our Architect Engineer on November 3, 1980.

Mr. A. Finkel of your staff indicated that this delay would not create a problem.

Very truly yours,

J. P. Bayne
Senior Vice President
Nuclear Generation
