Dear Colonel Spacy:

I am writing to express my appreciation for the site visit at Wright-Patterson AFB that was facilitated by Mr. Mark Mays of your staff. Mr. Mays and his colleagues were very supportive of the site visit and provided me, members of my staff, and the NRC Project Manager for the Master Materials Program with in-depth information regarding the permits issued by the USAF Radioisotope Committee for NRC licensed activities at military installations.

We also very much appreciate the opportunity to tour the National Museum of the US Air Force and the radium storage area. NRC had recently required licensing of radium items where 100 or more items are located at any one location. The USAF was already controlling the radium items under the permit process and it was beneficial to see first hand the controls and accountability mechanisms that have been in place for a number of years.

Again, thank you for making your staff available to host our visit and for your hospitality. We appreciate the coordination and arrangements made by Mr. Mays and the time and effort that members of your staff took to make this a successful and worthwhile site visit.

Sincerely,

/RA/

Arthur T. Howell III, Director
Division of Nuclear Materials Safety
