Atlanta, GA 30303

References: 1) Docket No. 70-143; SNM-124
2) Confirmatory Action Letter (CAL No. 2-2010-001), dated January 7, 2010,
Mr. Luis A. Reyes (NRC) to Mr. David Kudsin (NFS)

Dear Sir:

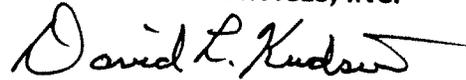

This letter is being provided pursuant to Confirmatory Action Letter (CAL No. 2-2010-001), Item 9 of the list of "Actions Prior to Restart of Operations" (Reference 2).

NFS has completed the Independent Team review of restart actions required by CAL Item 8. The team concluded that NFS has satisfactorily completed the list of "Actions Prior to Restart of Operations" for the Naval product line and the BLEU Preparation Facility. NFS is now prepared to stand inspection associated with the Naval product line, and the Uranium Aluminum and the Uranium Oxide lines of the BLEU Preparation Facility, and requests NRC inspection of our restart actions.

This letter serves as the required two-week notice for the inspection required by CAL Item 9. A separate notice will be given at a later time for the Commercial Development line.

If you or your staff have any questions, require additional information, or wish to discuss this further, please contact me at (423) 743-2547, or Mr. David Ward, Interim Director of Safety and Regulatory, at (423) 735-5570. Please reference our unique document identification number (21G-10-0031) in any correspondence concerning this letter.

Sincerely,
NUCLEAR FUEL SERVICES, INC.

David L. Kudsin
President
