Re: Indian Point Unit No. 2
Docket No. 50-247

Document Control Desk
US Nuclear Regulatory Commission
Mail Station P1-137
Washington, DC 20555

SUBJECT: Quality Assurance Program Description Revision 11

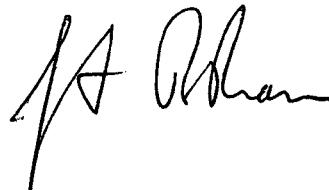

Pursuant to 10 CFR 50.54, submitted as Attachment I is Revision 11 to our Quality Assurance Program Description (QAPD). Revision 11 supersedes Revision 10 which was submitted to you on May 15, 1992. Attachment II of the enclosure summarizes the changes made in the text of the QAPD and Attachment III summarizes the changes made to organizational charts A and B. There have been no changes made to Appendix A or to Tables A and B.

The principal change identifies a Nuclear Projects organization which will be the primary organization responsible for implementing plant modifications. The change provides a more detailed description of functions previously performed by contractors for the Construction Department, Indian Point Projects organization. These functions will now be accomplished primarily by the Nuclear Projects organization with the support of the Nuclear Power, Nuclear Quality Assurance organization utilizing Con Edison personnel.

It is anticipated that this change will be fully implemented by mid-1994.

Should you have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,

290010
