SUBJECT: Supporting Vendor Documents for Steam Generator
Tube Sleeving and Acceptance Criteria Technical
Specification Amendment Request

Consolidated Edison Company of New York, Inc. transmits herewith vendor supplied documents which support the Technical Specification amendment request regarding steam generator tube sleeving and tube acceptance criteria that is transmitted to you with this mailing. The proposed amendment seeks to allow steam generator tube sleeving in accordance with either of two Westinghouse processes. In addition, it would establish a new steam generator tube acceptance criteria, F*, in accordance with an evaluation provided by B&W Nuclear Technologies (BWNT).

The supporting documents provided by Westinghouse are listed in Attachment A, and the supporting documents provided by B&W Nuclear Technologies are listed in Attachment B. As portions of this information are claimed to be proprietary, distribution controls are requested in accordance with 10 CFR Section 2.790. A copy of each of the listed documents, notices, and affidavits is enclosed.

Should you have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,

Proprietary Information Notice

Transmitted herewith are proprietary and/or non-proprietary versions of documents furnished to the NRC in connection with requests for generic and/or plant-specific review and approval.

In order to conform to the requirements of 10 CFR 2.790 of the Commission's regulations concerning the protection of proprietary information so submitted to the NRC, the information which is proprietary in the proprietary versions is contained within brackets, and where the proprietary information has been deleted in the non-proprietary versions, only the brackets remain (the information that was contained within the brackets in the proprietary versions having been deleted). The justification for claiming the information so designated as proprietary is indicated in both versions by means of lower case letters (a) through (f) contained within parentheses located as a superscript immediately following the brackets enclosing each item of information being identified as proprietary or in the margin opposite such information. These lower case letters refer to the types of information Westinghouse customarily holds in confidence identified in Sections (4)(ii)(a) through (4)(ii)(f) of the affidavit accompanying this transmittal pursuant to 10 CFR 2.790(b)(1).

Copyright Notice

The reports transmitted herewith each bear a Westinghouse copyright notice. The NRC is permitted to make the number of copies of the information contained in these reports which are necessary for its internal use in connection with generic and plant-specific reviews and approvals as well as the issuance, denial, amendment, transfer, renewal, modification, suspension, revocation, or violation of a license, permit, order, or regulation subject to the requirements of 10 CFR 2.790 regarding restrictions on public disclosure to the extent such information has been identified as proprietary by Westinghouse, copyright protection notwithstanding. With respect to the non-proprietary versions of these reports, the NRC is permitted to make the number of copies beyond those necessary for its internal use which are necessary in order to have one copy available for public viewing in the appropriate docket files in the public document room in Washington, DC and in local public document rooms as may be required by NRC regulations if the number of copies submitted is insufficient for this purpose. Copies made by the NRC must include the copyright notice in all instances and the proprietary notice if the original was identified as proprietary.
