Re: Indian Point Unit No. 2
Docket No. 50-247

Document Control Desk
US Nuclear Regulatory Commission
Mail Station P1-137
Washington, DC 20555

SUBJECT: 1995 Refueling Outage Inservice Inspection Program
Summary Report - Second Outage, Third Period, Second
Interval

Inservice inspections of primary-side and secondary-side components, the reactor vessel, steam generators, and piping and supports, were performed during the 1995 refueling outage pursuant to the Indian Point Unit No. 2 inservice inspection program, as required by Section 4.2.2 of the Technical Specifications. These inspections are for the second outage of the third period of the second interval.

A summary of the work performed, including the areas subject to examination, is provided in Attachments I and II. The detailed data is available on site for review. Form NIS-1, entitled "Owners' Data Report for Inservice Inspections", is contained in Attachment III.

Paragraph IWB-3125(B) of the ASME Boiler and Pressure Vessel Code, Section XI, 1980 edition up to and including the Winter 1981 Addenda, requires the submittal of evaluation analyses of examination results performed to accept components per paragraph IWB-3122.4. Table 2 of Attachment I refers to an analysis of linear surface indications on one of three lugs on Reactor Coolant Pump 23. This evaluation was performed by Westinghouse and the analysis and associated documents are included in enclosures to Attachment I.

Enclosure 1 to Attachment I contains a Proprietary Information Notice and a Copyright Notice applicable to both Enclosures 2 and 3. Enclosure 2 contains the Westinghouse "Application for Withholding Proprietary Information from Public Disclosure" (CAW-95-847), an accompanying Affidavit, and WCAP-14352 Revision 1, "Evaluation of Indications Found in the Pump Casings of Indian Point Unit 2", dated June 1995 (proprietary). Enclosure 3 contains WCAP-14406, "Evaluation of Indications Found in the Pump Casings of Indian Point Unit 2", dated June 1995 (non-proprietary).

The analysis in Enclosure 2 to Attachment 1 contains information as to which Westinghouse Electric Corporation asserts proprietary claims. As such, it is supported by an affidavit which sets forth the basis on which Westinghouse asserts that the information may be withheld from public disclosure by the Commission, and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.790 of the Commission's regulations. Accordingly, it is respectfully requested that the information as to which Westinghouse asserts proprietary claims be withheld from public disclosure in accordance with 10 CFR Section 2.790 of the Commission's regulations.

Correspondence with respect to the copyright or proprietary aspects of the Enclosure 2 and 3 analyses should reference CAW-95-847 and be addressed to N.J. Liparulo, Manager of Nuclear Safety Regulatory & Licensing Activities, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania, 15230-0355.

Should you or your staff have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety & Licensing.

Very truly yours,

Attachments
