Doug,

The 3 copies of TMEM-106, Rev 2 on CD were shipped via UPS to you last night. They should be arriving at your office today.

The UPS Tracking code is 1ZWA 4160 13 9190 1146.

Thanks,
Paul

Doug:

338884-TMEM-106, Rev 2 was provided in hard copy attachment to NPD-NRC-2009-235 submitted to the docket on December 2, 2009. Scanning or copying of the document may have produced the poor quality document that your team is using.

I will send you 3 copies of TMEM-106, Rev 2 on CD for use by you and your staff in reviewing the figures.

Thanks,
Paul Snead

Subject: FW: Rev 2 Floodplain Analysis Figures

Paul,

Please see the following request from Bill Baber:

In response to clarifications for NRC RAI 4.1.1-1, PEF provided a revised Floodplain Bounding Analysis as an attachment to their December 2, 2009 submittal to the NRC (see technical memorandum 338884-TMEM-106 Rev. 2 authored by CH2MHILL). The figures in the Rev 2 Floodplain Bounding Analysis are of poor quality; none of the shading on the figures appears to have reproduced. Please provide legible figures for the Rev 2 Floodplain Bounding Analysis.

Thanks,

Doug Bruner
