NUCLEAR REGULATORY COMMISSION**

In the Matter of)
NEW YORK POWER AUTHORITY)
Indian Point 3 Nuclear Power Plant)

Docket No. 50-286

APPLICATION FOR AMENDMENT TO OPERATING LICENSE

The New York Power Authority requests an amendment to the Technical Specifications contained in Appendix A and Appendix B, Part II to Facility Operating License DPR-64 for the Indian Point 3 Nuclear Power Plant. This application is filed in accordance with Section 10 CFR 50.90 of the Nuclear Regulatory Commission's regulations.

This application for an amendment proposes to replace the title-specific list of members on the Plant Operating Review Committee (PORC) with a more general statement of membership requirements. The scope of disciplines represented on the committee is also expanded to include nuclear licensing and quality assurance.

This amendment application also proposes to change the title 'Resident Manager' to 'Site Executive Officer.' This is a change in title only and does not affect the reporting relationship, authority or responsibility of this position. Delegation of responsibility during periods when the Site Executive Officer is unavailable is reworded to reflect a recent reorganization that changed the number of General Managers.

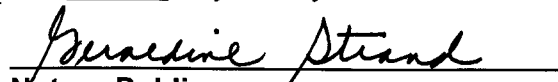

Attachment I contains the proposed new Technical Specification pages and Attachment II is the Safety Evaluation for the proposed change. A markup of the affected Technical Specification pages is included as Attachment III.

New York Power Authority

W.J. Cahill, Jr.
Chief Nuclear Officer
