Welcome to Saint Mary's County Public Schools

Welcome to St. Mary's County Public Schools (SMCPS). With approximately 16,892 students, our school system is large enough to offer a wide variety of academic programs and services, and small enough to maintain an atmosphere of friendliness, helpfulness, and personalized service. As a school system, we are focused on student achievement and assuring that our students meet rigorous standards; at SMCPS all children can and will learn. Our goal is to focus our efforts to create a total community committed to learning and safety for ALL children. By "**Working Hard and Being Nice**," we have an opportunity to provide an optimal teaching and learning environment that is second to none. We look forward to working with you as we "**Chart a Course to Excellence**."
