May 2007 Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates Rochester, NY

For metropolitan and nonmetropolitan area definitions used by the OES survey, see the [MSA definitions](#) page.

These estimates are calculated with data collected from employers in all industry sectors in Rochester, NY, a metropolitan statistical area in New York.

Additional information, including the hourly and annual 10th, 25th, 75th, and 90th percentile wages and the employment percent relative standard error, is available in the [downloadable Excel files\(XLS\)](#).

[About May 2007 National, State, Metropolitan, and Nonmetropolitan Area Occupational Employment and Wage Estimates](#)

(1) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(2) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(3) The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

- (4) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.
- (5) This wage is equal to or greater than \$70.00 per hour or \$145,600 per year.
- (8) Estimates not released.
- (9) Wage data for this occupation were removed because of reporting errors. Data are being corrected and revised wage estimates will be posted as soon as possible.
