Docket Nos. 52-012 and 52-013
Post-Combined License Activities –
Submittal of Meeting Presentation Materials

Reference: Letter, Scott Head to Document Control Desk, "Additional I&C Information," dated June 18, 2009 (U7-C-STP-NRC-090059) (ML091760627)

On February 2, 2010, STPNOC met with the NRC staff to discuss an NRC-conducted pilot inspection of STP's digital instrumentation and controls (I&C) design acceptance criteria (DAC) resolution activities. During the agenda item for the closed portion of the meeting, STPNOC presented a schedule of I&C DAC documents availability. STPNOC considers this schedule information confidential commercial property. This letter provides a public version and a proprietary version of the STP presentation materials from the meeting. When separated from Attachment 1, this cover letter is not proprietary.

The schedule information provided in STPNOC's presentation updates similar information previously provided in the referenced letter. Future updates will be provided to the NRC as schedule changes occur.

Attachment 1 provides the handout (proprietary) STPNOC used for the presentation. Attachment 2 provides the same handout with the proprietary information redacted (non-proprietary). Attachment 3 is an accompanying affidavit for withholding the proprietary information. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations in 10 CFR 2.390 of the Commission's regulations. Accordingly, it is respectfully requested that the identified information be withheld from public disclosure in accordance with 10 CFR 2.390.

There are no commitments in this letter.

If you have any questions regarding these responses, please contact me at (361) 972-7136, or Bill Mookhoek at (361) 972-7274.
