SUBJECT: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
License No. DPR-64
Licensee Event Report # 97-032-01
**480 Volt Bus Inoperable Due to A Failure of the 32 Residual
Heat Removal Pump Circuit Breaker To Open;
A Condition Prohibited by Technical Specification**

Dear Sir:

The attached Licensee Event Report (LER) 97-032-01 is a supplement that revises LER 97-032-00 submitted by letter dated January 16, 1998 (IPN-98-005). This supplement provides the results of the completed root cause and equipment failure evaluation, the additional corrective actions, and the adjustments to the safety significance to reflect the final evaluation results. This supplement is being submitted in accordance with the commitment provided in the initial LER. This event is of the type defined in 10 CFR 50.73 (a)(2)(i)(B).

Also attached are the commitments made by the Authority in this LER.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'Robert J. Barrett', written over a horizontal line.
