Docket No. 50-286  
License No. DPR-64

Mr. Joseph D'Antonio  
License Examiner  
U.S. Nuclear Regulatory Commission  
Region 1  
475 Allendale Road  
King of Prussia, PA 19406

Dear Mr. D'Antonio:

This letter is to clarify the "Extra Man On Shift" section of Mr. Richard Robenstein's application. The New York Power Authority discussed Mr. Robenstein's requirements with the Nuclear Regulatory Commission in the fall of 1992. The New York Power Authority recommended, and the Nuclear Regulatory agreed, Mr. Robenstein needed six weeks of watch as an Extra Man on Shift. As the instructor for Senior Reactor Operator Upgrade Class of 1986, Mr. Robenstein was assigned to the control room for seven of the twelve weeks. Six weeks of watches were left to be stood.
