Subject:

Indian Point 3 Nuclear Power Plant Docket No. 50-286 License No. DPR-64 Operator License Amendment Submittal

Dear Sir:

In accordance with 10 CFR 55.25, please find attached NRC Form 396, "Certification of Medical Examination by Facility Licensee," for the following licensed Senior Reactor Operator (SRO):

Michael Tesoriero, License No. SOP-10988, Docket No. 55-61375.

The NRC issued a license amendment to include a "corrective lenses" condition by letter dated December 21, 1995. On December 1, 1997, the Authority determined that Mr. Tesoriero's medical examination results were a change in his physical condition. The Authority requests that Mr. Tesoriero's license be amended to remove the restriction requiring the use of corrective lenses while performing licensed duties.

The Authority is making no new commitments in this submittal.
