Nuclear Regulatory Commission, dated January 14, 1998.

Dear Sir:

The attached monthly operating report, for the month of January 1998, is hereby submitted in accordance with Indian Point 3 Nuclear Power Plant Technical Specification 6.9.1.4. As a result of reviewing our forced outage rate statistics, the Authority re-characterized the forced outage duration for December 1997. Based on this effort, included is a revised December 1997 "Unit Shutdowns and Power Reductions" attachment, for use in place of the attachment previously submitted with the December 1997 report (Reference).

The Authority is making no commitments in this letter.

Very truly yours,
