

APPENDIX A

NOTICE OF VIOLATION

New York Power Authority
Indian Point 3 Nuclear Power Plant

Docket No. 50-286
License No. DPR-64

During an NRC inspection conducted on October 13, 1993 to November 13, 1993, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1993), the violation is listed below:

Administrative Procedure (AP)-13 requires that all Category I and Category M temporary modifications be approved by PORC prior to implementation. Technical Specifications Section 6.5.1.6.d requires PORC review of all proposed changes or modifications to plant systems or equipment that affect nuclear safety.

On November 8, 1993, NYPA identified that modification 92-0912-03, "Reconnect wires for the 1A Refrigerator Dryer Bypass Valve Open", which is a Category M system, was installed on October 29, 1993, prior to receiving PORC approval.

This is a violation of Technical Specification 6.5.1.6.d and AP-13 requirements.

This is a Severity Level V Violation. (Supplement I)

Pursuant to the provisions of 10 CFR 2.201, New York Power Authority, is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region I, and a copy to the NRC Resident Inspector at Indian Point 3 within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Under the authority of Section 182 of the Act, 42 U.S.C. 2232, this response shall be submitted under oath or affirmation.

Dated at King of Prussia, Pennsylvania
this 5th day of January 1994
