Senator Alfonse D'Amato
Senate Office Building
Washington, D.C. 20510

Dear Senator D'Amato:

On behalf of the Village of Piermont Conservation Advisory Commission, I wish to express our deep concern regarding the planned re-opening of the Indian Point 3 Nuclear Reactor. This aging facility, located within a densely populated metropolitan area, has been repeatedly fined for numerous infractions. We are concerned with the risks that returning this plant to operation presents for all of us residing in this area. We furthermore understand that some of the operating difficulties have resulted in leakage of radioactive materials and/or other pollutants into the air or into the Hudson River. We hope that, in the interest of ensuring the safety of the entire region, you will do all that you can to see that this decision is reversed.

Very truly yours,

Dolores Keller, Ph.D.
