SUBJECT: INDIAN POINT 3 EXAMINATION REPORT NO. 50-286/97-05 (OL)

Dear Mr. Barrett:

During the week of May 19, 1997, the NRC administered initial examinations to two employees of your company who had applied for licenses to operate the Indian Point 3 generating station. The examination was developed by the Indian Point 3 training department utilizing the guidance of NUREG-1021, "Operator Licensing Examiner Standards," Rev. 7 and Generic Letter 95-06.

The results of the examinations were that both senior reactor operator (SRO) candidates passed all exam sections and were issued licenses.

Should you have any questions concerning this examination, please contact me at 610-337-5211.

Sincerely,
