MEMORANDUM TO: New York Power Authority Assessment Panel (NAP) Members
FROM: Curtis J. Cowgill, NAP Chairman *C. Cowgill*
SUBJECT: MINUTES FROM NAP MEETING 95-07

NAP meeting 95-07 began at 2:00 p.m. on April 25, 1995, in the Region I DRP Conference Room. Mr. Cowgill opened the meeting by discussing the Restart Assessment Team Inspection (RATI) exit meeting scheduled for April 27, 1995. The meeting will be held in the basement of the Peekskill Public Library. Following the exit meeting, the NRC will host a question and answer session with interested members of the public. The meeting with the public will be transcribed to ensure that the NRC properly addresses questions from the public.

The remainder of the meeting was devoted to briefing NAP members and other senior NRC managers of the results from the RATI. Mr. Trapp gave a detailed presentation of the Team's findings and conclusions. The Team concluded that once the six restart items were addressed by NYPA, there were no adverse findings that would preclude the licensee from restarting and operating the plant in the near future. After careful evaluation of the Team's findings, the NAP concluded that the team had performed an in-depth inspection and had properly evaluated their findings. The meeting adjourned at 5:00 p.m.
