RE: EPA ID # NYD085503746

Dear Mr. Meacham:

Please find the enclosed revised Part 373 application (including text and tables; figures are not included since they have not changed) for the storage of mixed waste at the Indian Point 3 Nuclear Power Plant (IP-3). Also enclosed is a copy of the draft permit which was provided for our comment, with comments noted.

The application has been modified in accordance with changes in site organization and as per our request and your response letter of September, 29, 1995. Specifically, we have removed the direct reference to the site specific procedures from the application.

To avoid the unnecessary burdens of modifying the permit whenever procedures revisions are needed, direct reference to the procedures has been eliminated. At the same time, the means by which NYPA will ensure compliance with NYSDEC's hazardous waste storage regulations is described.

Again, thank you for providing us with the opportunity to make these revisions.

Should you have any questions, or wish to discuss this, please call Dara Gray (914) 736-8414, John LePere (914) 736-8472 or John Kahabka (914) 681-6308.

Very truly yours,

L.M. Hill
