SUBJECT: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
License No. DPR-64  
**State Pollutant Discharge Elimination System (SPDES) Permit**

Dear Sir:

Indian Point 3 Non-Radiological Environmental Protection Plan, Appendix B, Section 3.2 of the Technical Specifications requires that violations of the SPDES Permit be reported to the NRC by the submittal of a copy of the reports required by the SPDES Permit. The NRC staff requested notification of excursions from the SPDES Permit effluent limits, regardless of whether or not the excursion resulted in a Notice of Violation by the New York State Department of Environmental Conservation (NYSDEC). Accordingly, the enclosure to this letter provides a copy of the cover letters and Report of Noncompliance Event submitted to the NYSDEC for those months in 1995 in which there were reported excursions.

If you or your staff have any questions regarding this matter, please contact Mr. K. Peters of my staff.

The Authority is making no commitments in this letter.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'Robert J. Barrett'.

Robert J. Barrett  
Plant Manager  
Indian Point 3 Nuclear Power Plant
