SUBJECT: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
License No. DPR-64
State Pollutant Discharge Elimination System (SPDES) Permit

Dear Sir:

Indian Point 3 Non-Radiological Environmental Protection Plan, Appendix B, Section 3.2 of the Technical Specifications requires that violations of the SPDES Permit be reported to the NRC by the submittal of a copy of the reports required by the SPDES Permit. The NRC staff requested notification of excursions from the SPDES Permit effluent limits, regardless of whether or not the excursion resulted in a Notice of Violation by the New York State Department of Environmental Conservation (NYSDEC). Accordingly, Attachment I to this letter provides copies of the "Report of Noncompliance Event" and their associated cover letter submitted to the NYSDEC in 1997.

If you or your staff has any question regarding this matter, please contact Mr. K. Peters (914) 736-8029.

The Authority is making no commitments in this letter.

Very truly yours,

Robert J. Barrett
