Subject: Supplement to the Submittal of Internally Authorized Changes (IACs) for Calendar Year 2009

While preparing revisions to Nuclear Fuel Services, Inc. (NFS) Unclassified Integrated Safety Analysis (ISA) Summaries for Calendar Year 2009, it was determined that one IAC was inadvertently omitted from the summary provided with Reference 2. This supplemental information is included in the Attachment.

Information provided in the Attachment includes sensitive information and is marked as "Official Use Only" in accordance with 5 U.S.C. 552, and is not suitable for public release.

The Integrated Safety Analysis (ISA) Summaries that reflect changes to existing NFS operations and those at the BLEU Complex are being submitted under separate cover letter in accordance with 10 CFR 70.72(d)(3). To assist in your review of the revised ISA Summaries, the Attachment identifies the ISA Summary that relates to the process change approved in the IAC.
