

Federal Emergency Management Agency

Washington, D.C. 20472

JUL 10 1987

MEMORANDUM FOR: Frank J. Congel
Director, Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation
Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards Programs

SUBJECT: Indian Point Remedial Activities Report

Attached is a copy of the post-exercise assessment report for remedial activities performed as a result of deficiencies observed at the June 4, 1986 exercise at the Indian Point Nuclear Power Station, Buchanan, New York. The remedial activities took place from November 10 to December 3, 1986; a redrill of one of the activities took place on February 18, 1987. As a result of these activities, all deficiencies observed in the June 1986 exercise were corrected. The following jurisdictions were involved: Westchester, Rockland and Orange Counties in New York. Bergen County, New Jersey also participated.

The report was prepared by Federal Emergency Management Agency, Region II. The tables which usually appear in the back of exercise reports to track the status of corrective actions and objectives are not inserted in this copy of the report. They are being updated to include a more complete picture of exercise activity at the Indian Point site and will be forwarded to you in the very near future.

If you have any questions, please feel free to contact Mr. Robert S. Wilkerson at 646-2861.
