Assistant Associate Director
Office of Natural and Technological Hazards Programs

SUBJECT: Supplemental Information on Indian Point

On July 10, 1987, we transmitted to you the post-exercise assessment of remedial activities performed as a result of deficiencies observed at the June 4, 1986 exercise at the Indian Point Nuclear Power Plant, Buchanan, New York. The tables usually appearing at the back of the report were not included. On July 21, 1987, we transmitted a copy of the updated tables. However, we have since discovered, and corrected, discrepancies in a few items. The corrected tables, dated September 16, 1987, were recently received from FEMA Region II and are attached.

If you have any questions, please feel free to contact me or Ms. Margaret Lawless at 646-2826.
