Docket Nos. 50-03  
50-247

NOV 25 1980

Consolidated Edison Company of  
New York, Inc.  
ATTN: Mr. Peter Zarakas  
Vice President  
4 Irving Place  
New York, New York 10003

Gentlemen:

Subject: Combined Inspection 50-03/80-01 and 50-247/80-10

This refers to the routine inspection conducted by Mr. T. J. Jackson of this office on July 21-25, 29-30 and August 4-8, 1980 at Indian Point Generating Station, Buchanan, New York and Corporate Offices of Consolidated Edison Company of New York of activities authorized by NRC License Nos. DPR-5 and DPR-26 and to the discussions of our findings held by Mr. Jackson with Mr. Shatkouski and others of your staff at the conclusion of the inspection, and to a subsequent telephone discussion between Mr. Jackson and Mr. Shatkouski on September 12, 1980.

Areas examined during this inspection are described in the Office of Inspection and Enforcement Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the items of noncompliance brought to your attention in the enclosure to our letter dated July 12, 1978. With regard to item D, we note that this item has recurred.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These items of noncompliance have been categorized into the levels as described in our correspondence to you dated December 31, 1974. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within twenty (20) days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further items of noncompliance; and (3) the date when full compliance will be achieved.

NOV 25 1980

Item C in the Notice of Violation enclosed with this letter was identified during a previous inspection of your licensed activities on May 16-23, 1978 and was documented in the enclosure to our letter dated July 12, 1978. Your letter to this office dated August 18, 1978 stated that repairs to the rate of change of delta Tc recorder were made by May 31, 1978 and to prevent recurrence that responsible personnel were reminded of the need to issue a Maintenance Work Request when instrument or equipment deficiencies were observed. From our July 21-August 8, 1980 inspection it appears that the stated corrective actions were not effective since this item has recurred. Recurrent and uncorrected items of noncompliance are given additional weight in the consideration and selection of appropriate enforcement action. Therefore, in your response to this letter, you should give particular attention to those actions taken or planned to ensure that identified items of noncompliance will be corrected and will not recur.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosures will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must be accompanied by an affidavit executed by the owner of the information, which identifies the document or part sought to be withheld, and which contains a statement of reasons which addresses with specificity the items which will be considered by the Commission as listed in subparagraph (b) (4) of Section 2.790. The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

  
Boyce H. Grier  
Director
