RE: U.S. Nuclear Regulatory Commission Materials License No. 21-26707-01MD

Ms. Colleen Carol Casey:

Please allow this letter to serve as notice of what I believe to be a minor discrepancy on license No. 21-26707-01MD. The error was noted on Amendment #26 during the annual review of Medi-Physics, Inc., dba GE Healthcare NRC license. On amendments prior to #26, license conditions 6(l), 7(l), 8(l), and 9(l) referenced 10 CFR 35.57. When we applied for Amendment #26, we noted the incorrect reference and request it be updated. License conditions 6(l), 7(l), 8(l), were changed to reference 10 CFR 35.65, but condition 9(l) still references 10 CFR 35.57. It is my belief that license condition 9(l) should also reference 10 CFR 35.65. If you deem it necessary, please update the license as needed.

Should you have any additional questions, please feel free to contact me at 616-554-5717. I look forward to hearing back from you at your convenience.

Sincerely,

Jonathan Winters, R.Ph., Pharm.D.
