REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

FEB 11 2010

Kevin B. Miller, B.S.
Radiation Safety Officer
Heart & Vascular Physicians
Harper Professional Building
4160 John R.
Suite 510
Detroit, MI 48201

Dear Mr. Miller:

This refers to the facsimile letter dated December 23, 2009, and the facsimile letter received January 7, 2010, and to our telephone conversation on February 10, 2010. During the telephone conversation, we discussed voiding your requests at this time because they are confusing. These requests are confusing because it appears that the physician users wish to remove each other from the NRC license, add a new location of use, change the name of the licensee, remove a physician user from managing authority, and remove the current Radiation Safety Officer without his knowledge. Therefore, we will void your requests at this time to allow you time to clarify your amendment requests. From discussions with the Radiation Safety Officer (Kevin B. Miller), since there appears to be disharmony between the partners that hold the NRC license, please have both partners sign any future amendment requests or have one partner sign the amendment request with the concurrence from the Radiation Safety Officer acknowledging that he has reviewed the amendment request. We cannot allow disharmony between partners that could lead to a problem which could impact patient care and/or endanger the public's health and safety. We will void your requests without prejudice to resubmission. Please resubmit your amendment request as additional information to **Voided Control 318729**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please contact me at 630-829-9839 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
