Dear Mr. McKinley,

Please see attached diagram for the bathroom in the Radiology and proposed mobile PET/CT trailer for WAMC License No. 32-04054-04. Due to lacking any specific questions about the latest amendment request, I think you would be interested in the following information. Patients will go to the NMC first to check in, and then they will be escorted by the NMC tech to the trailer located on the pad outside the hospital. PTs will be encouraged to use the bathroom before the injection with the FDG, they will stay on the trailer for a mandatory waiting period and for the study. NMC will be escorting PTs to and from the bathroom (Rm. B10889A-2) along the path indicated on the diagram in case PTs need to use the bathroom again. The bathroom is adjacent to the shielded room in the Radiology department with the General Purpose unit. There are 40 steps from the bathroom to the trailer.

If you need additional information or have questions, please call me at (910) 907-8364.

Thank you,
Ioulia Melomed
