SUBJECT: Revised Technical Specification Page / 24 Month
Fuel Cycle Technical Specification Amendment

By Amendment No. 166, the NRC approved a revision to page 2 of Table 4.1-1 of the Technical Specifications. This revision now supersedes the version of this page as included in our Technical Specification Amendment request of May 5, 1993, which was subsequently revised by our letter of August 27, 1993. A copy of the page now in effect is enclosed. The purpose of this letter is to request that you substitute the enclosed page in the May 5, 1993 submittal so that it reflects issuance of the latest Technical Specification Amendment.

Should there be any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
