**SUBJECT: Proposed Amendments Consisting of Administrative
Changes to Technical Specifications.**

Consolidated Edison Company of New York, Inc. transmits herewith one (1) signed original and two (2) copies of "Application for Amendment to Operating License" sworn to on November 2, 1994. The proposed Technical Specification changes, as set forth in Attachment I to this application, involve making editorial changes, deleting portions of the Technical Specifications that have become unnecessary due to previously approved amendments, changing managerial titles, updating references and reporting requirements, revising the SNSC composition to specify disciplines rather than specific job titles, modifying the record keeping requirements of the Nuclear Facilities Safety Committee (NFSC), implementing changes referenced in Generic Letter 93-07, and revising shift manning requirements to reflect the requirements of 10 CFR 50.54.

Should you or your staff have any questions regarding this submittal, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
