SUBJECT:
Perry Nuclear Power Plant
Docket No. 50-440, License No. NPF-58
Request to Withhold Simulator License Examination Scenarios from Public Disclosure

The purpose of this letter is to request that the NRC withhold from public disclosure simulator examination scenarios 1 and 3 developed for the 2009 Perry initial operator license examination process. These examination scenarios were not used in the January 2009 initial operator license examination. Perry would like to have these examination scenarios available for future use. Therefore, it is requested that simulator examination scenarios 1 and 3 not be posted to the public accessible portion of ADAMS or the NRC Public Document Room. Thank you for your consideration in this request.

There are no regulatory commitments contained in this letter. If there are any questions or if additional information is required, please contact Mr. Anthony E. Mueller, Jr., Manager - Perry Training Section at (440) 280-5535.

Sincerely,

Mark B. Bezilla
