Subject: Shieldalloy Metalurgical Corporation (SMC)

Jack,

Dr. David White, HSE Director, for Shieldalloy Metalurgical Corporation (SMC) just called me and informed me that David Smith, the SMC RSO, who is a contract employee of TRC Environmental, was laid off by TRC, and thus no longer RSO for the SMC Newfield, NJ facility. Dr. White indicated that SMC was making an offer to Mr. Smith for employment with SMC, and he should know within about a week if he accepts this offer. In the mean time, Ms. Barbara Flowers, SMC HSE Manager, who has taken a 40-hour RSO training course can fulfill the RSO function. Ms. Flowers has support of the Carol Berger, CHP of SMC's radiological consultant, IES. You can contact Dr. White if you need any additional details (856.241.4620).

I gave a courtesy notification to Jenny Goodman at the State of New Jersey DEP office.

Mark Roberts
