Subject: FW: Request: Supplement Briefing Book for TVA Drop-In
Attachments: Supplemental Info for TVA Drop-In 03-03-10.doc

Importance: High

Terry,

Could you please put the below e-mail and attachment in the TVA Briefing Book Package ML100540386.

Thanks
John

Steven,

Attached, for your review, is the supplemental info requested yesterday by the Chairman's office. Please let me know if this meets the request. If not, please provide comments. If so, let me know how many copies you need.

Thanks.
John

John,

Lets talk about the following request.

Thanks

Steve

Subject: Request: Supplement Briefing Book for TVA Drop-In

Hello Steven,

Please, ask the staff to supplement the briefing book for the TVA drop-in with:

1. a facility data sheet for Sequoyah
2. background on tritium production at Sequoyah
3. additional background on any known inadvertent releases of radioactive material for all the TVA sites.
4. background information on recently reported agreement with NNSA to explore use of MOX fuel.

Thanks.

Michael Marshall, Jr.
Chief Advisor to Reactors
Office of the Chairman
U.S. Nuclear Regulatory Commission
