MEMORANDUM TO: Those on the Attached List

FROM: Robert L. Johnson, Senior Project Manager **/RA/**
Special Projects Branch
Decommissioning and Uranium Recovery
Licensing Directorate
Division of Waste Management
and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs

SUBJECT: TRANSMITTAL OF FY2009 ANNUAL REPORT ON THE U.S. NUCLEAR
REGULATORY COMMISSION'S INVOLVEMENT WITH MILITARY
REMEDATION

I am enclosing for your information a copy of our first Annual Report for Fiscal Year (FY) 2009 on the U.S. Nuclear Regulatory Commission's (NRC) involvement with military remediation at the Navy's Hunters Point Shipyard site and the Air Force's McClellan site. This report is intended to keep NRC management and staff informed about the staff's activities, plans, and observations regarding the Navy and Air Force remediation at these two sites during FY 2009. The report also forms the documentary record of the staff's continued involvement at these sites and the basis for our continued reliance on the approach the Commission approved. In addition, this report is a knowledge management product that includes a summary of all relevant information related to this new NRC decommissioning project, including background about the development of Commission policy, program objectives and approach, chronology of important events, future plans, and key references.

Enclosure:
FY 2009 Annual Report
