great! I'm just digging into all of the documents.... turns out they submitted some stuff again that isn't for public release - after we worked so hard with them before! I'll mark you off the list.

Dennis is back; we should have a follow-up call with you - I'll try to get something scheduled this week if possible - we're trying to get all of these loose ends taken care of and finalize the paper.

I'm forwarding you NJ's response to our team comments; I got them Friday afternoon. I have not looked through them yet against the team comments. However, you each had comments that should be checked - mostly for things where procedures were missing. We didn't ask them to provide updates to NUREG references and such.

I sent this to Gary Purdy as well for his area of review.

Please look at this and let me know if this addresses your original comment. I'll be looking at this today as well. If we need to have a quick meeting tomorrow/Wed., that's fine too. I'm really trying to get everything finalized so we can start concurrence.

thanks - Torre
