Software Release Notice
Acquired Software

1. Software Name: OLIAnalyzer Studio Software Version: 3.0
Project Number: 20.14002.01.353

2. Software Function: Process simulation software used for evaluating the thermodynamic and transport properties of aqueous systems in industrial and environmental applications

3. Summary of Actions:
❑ New Software **X** Update to Existing Software ❑ Software Retirement

4. Software Installation

4a. Computer Platform(s): PC 4b. Operating System(s): Windows XT, 2000
4c. Programming Language(s):

4d. Installation Testing:
■ Passed Performed by: R. Pabalan Testing Performed On: May 12, 2009
Description of Testing Performed: Several test cases listed in the validation test plan were run.

4e. Archive Copy:
☑ Enclosed ❑ Not Available, Why:

Installation Performed by: Mike Ledesma	Date: May 12, 2009

Remarks:

5. Software Assessment

Validation Status:
❑ Full Validation ■ Limited Validation Date of Validation: ~~May 12~~, 2009
❑ Not Validated, Explain:

9/9/2009
9/14/09

Software User: Roberto Pabalan	Date: September 14, 2009

Remarks: Only StreamAnalyzer module was validated; CorrosionAnalyzer was not included.

6. Approval

Manager:	Date: 9/14/2009

Remarks:

7. QA Verification

SRN Number: 467

Verified by:	Date: 9/14/09

Remarks:
