

April 8, 2010

MEMORANDUM TO: Brent Clayton, Branch Chief */RA/*
Environmental Technical Support Branch
Division of Site and Environmental Reviews

FROM: Jack Cushing, Senior Project Manager
Environmental Technical Support Branch
Division of Site and Environmental Reviews

SUBJECT: SUPPLEMENTAL STAFF GUIDANCE FOR CUMULATIVE EFFECTS
ANALYSIS

Enclosed is the supplemental guidance for the cumulative impact analysis for the new reactor environmental impact statements (EIS). Enclosure 1 directs the staff's cumulative impact analysis associated with the proposed project when considered in the context of other past, present, and reasonably foreseeable future actions. The scope of the section covered by this plan includes guidance on identifying the time frame of the analysis, the geographic area of interest, the baseline for the analysis, and other actions that could contribute to the cumulative impact. The guidance in this section is applicable to all resource areas. If the guidance is applicable to only one resource area it will be so identified. Enclosure 2 directs the staff's cumulative impact analysis for alternative sites.

Enclosures: As stated.
