Subject: email with 6/11/09 comment letter from SMC

Hi Donna - here is the email with the comment letter from SMC attached - it's the 6/11/09 letter. The ML numbers are: ML091680491 and ML091700382 - they put them in as 2 documents rather than a package with the letter and 4 attachments - don't know why they did that and I don't really know who "they" is!

It was nice actually meeting you and I appreciate all your help! I talked with John K. a little bit this afternoon - just a bit on the flavor of the comments from SMC and Jim Lieberman. He was curious about the nature of the comments and how we're addressing them - I think from the perspective of it delaying the schedule and such - related to the work RI has to do and plan for. He thought the earlier we can provide the paper for review in the process, the better - to help shave time off the office concurrence review. I know there is a window to let you all have a look while Terry and Duncan are reviewing in parallel - that might really save some time!

Talk with you later; hope you had a decent drive home.

oh, I put Jim Lieberman's comment in here too - just in case you haven't seen it - I lost track of what I sent. This one hasn't been processed yet - another thing to follow-up on this week.....
