Subject: GRANTS - Delay on Data for NRC License and DP-200 Semi-Annual Environmental Monitoring Report

John, Jerry,

In follow-up to our telephone conversation earlier today, I am still awaiting a re-run from the lab on some of our radiometric data to confirm lab results on gamma and alpha detectors. As a result, there will be a delay in our filing of the semi-annual Environmental Monitoring Report as required under our NRC site license and DP-200 discharge plan. We are hopeful that we will receive the data from the lab and be able to file the report by March 22. If there is a change or delay in this timing, I will advise as soon as possible. Thank you for your cooperation on this matter. Please call or e-mail if you have any further questions after our telephone conversation today.
