

New Jersey

New Jersey submitted a letter of intent to become an Agreement State to the NRC on May 23, 2006. NRC received the final Agreement application on October 21, 2008. NRC noticed the proposed Agreement on May 27, 2009, for four consecutive weeks. The comment period closed June 26, 2009. NRC received six comments letters on the proposed Agreement – two supporting the Agreement, two opposed, one that supported the rationale of States assuming regulatory authority but not the fee differences that will occur and one general comment that did not express support or opposition. NRC staff provided the Commission with its final recommendations on August 18, 2009, in SECY-09-0114. Upon approval of the Agreement by the Commission and signing of the Agreement by the Chairman and the Governor of New Jersey, the SECY will be publically available. The Agreement is still on schedule for an effective date of September 30, 2009.
