

New Jersey

New Jersey submitted a letter of intent to become an Agreement State to the NRC on May 23, 2006. NRC staff met with representatives from New Jersey on September 25, 2006, to discuss the process to become an Agreement State and gain an understanding of the New Jersey Bureau of Environmental Radiation. New Jersey submitted a draft application package on September 19, 2007 and NRC responded with comments on January 11, 2008. NRC received the final Agreement application on October 21, 2008. New Jersey has indicated that it wishes to become an Agreement State on or before September 30, 2009.

Deleted: New Jersey is updating the application package and intends to submit the final application in the fall 2008.
